FORWARD
1991

Moving forward...advancing, progressing, growing persevering...these are the attitudes manifested by our students through the year. Inspiring and benevolent, our school has influenced each and every forthcoming graduate. It has guided eager students plumbing the depths of knowledge in the vast ocean of education to the solutions of various problems confronted during each student's journey through school life. The 1990-91 year has enabled all the participants to mature, gain wisdom, and discover the treasures of the Marianist tradition.

THIS *FORWARD* IS DEDICATED TO OUR CLASSMATE

JUN KARINO

Most of us first learned of Jun's emergency hospitalization by telephone from somebody in the class. We were shocked, it was early summer and we were working, playing, or - like Jun - attending summer school. Then, suddenly, Jun was in an intensive care ward and the school was organizing a blood donor list. Those of us who could, gave blood. Instantly the slick catch-phrase "the gift of life" became profoundly real. Many parents, some who didn't even know Jun, also gave blood.

Most of the class, and some of the parents and teachers, made the trek out to St. Marianna to see Jun. For most of the summer, we had to wear a special hospital robe and gauze mask when we were in the room. Everyone admired Jun's mother who stayed with him day and night. By the end of the summer, Jun had regained some strength and we could visit him without the robe or mask.

Mr. Eymard and Fr. Mueller allowed us to have our graduation photo with Jun at the hospital, the first time in SJIS history that the photo was taken off campus. Then in November, almost everyone attended Jun's birthday party. It was great (see the photographs below), Jun talked in and didn't tire even though it went fairly late. The whole class felt united, with Jun at the center.

Jun, despite his serious condition, was even kind enough to write something for the Forward, excerpts follow. "When I first entered St. Joseph it was in the fourth grade. I still remember my homeroom teacher Mrs. Cruz often greated me in Tagalog because she knew I was from the Philippines....In six grade I started listening to Heavy Metal and Hard Rock music....In the seventh grade, my homeroom teacher was Mr. Chang. I think he was the best teacher I've ever had....I repeated the eighth grade and went to Fujikyu Highland twice....In the ninth grade I sat in the front for the whole year....The next year was fantastic because I played at the Bonfire for the first time....The eleventh grade was uneventful but I remember copying homework from classmates (it was my "hobby")....Since summer vacation I've been confined to the hospital. I've had a difficult time during these days...."

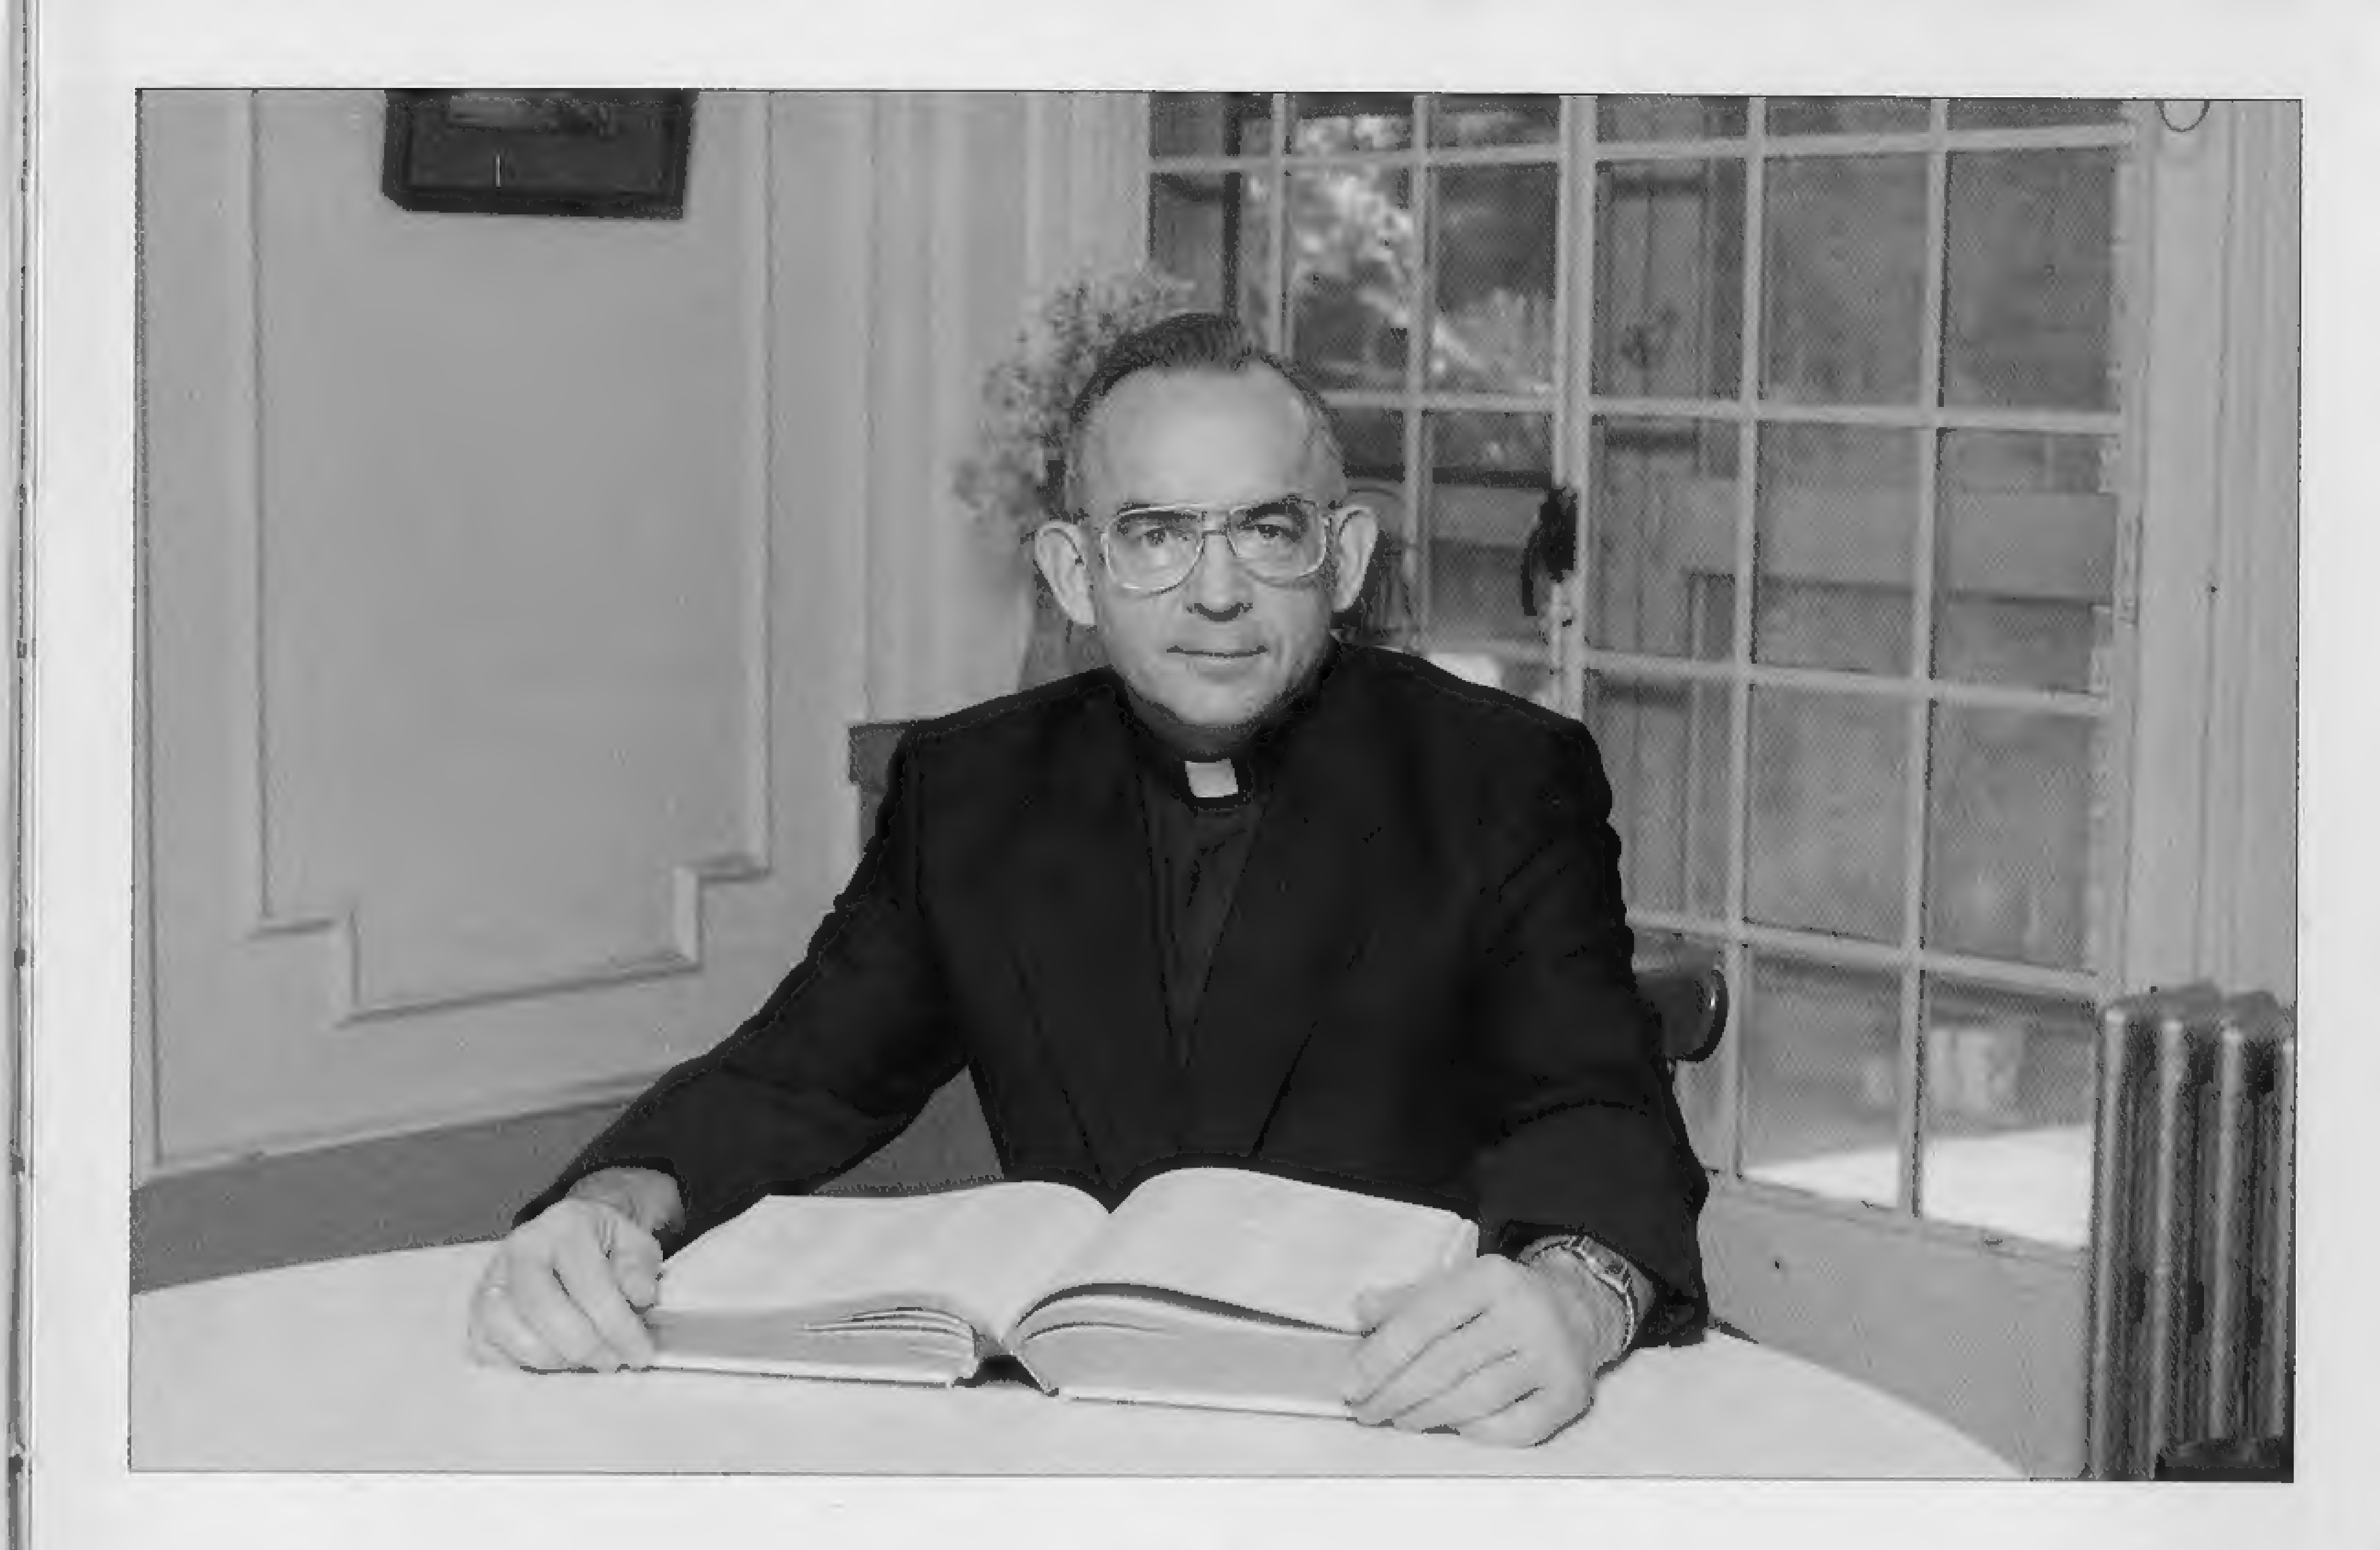

Now, as we get ready to submit this page to the printer for the final deadline in late March, we hope and pray that Jun will be well enough to be with us for senior graduation on June 9th.

June 9, 1991

Dear Graduates,

Congratulations! I have seen many of you mature over the years and am very proud of you. Some of you have experienced your entire education here at SJIS, and new students have added much to your class.

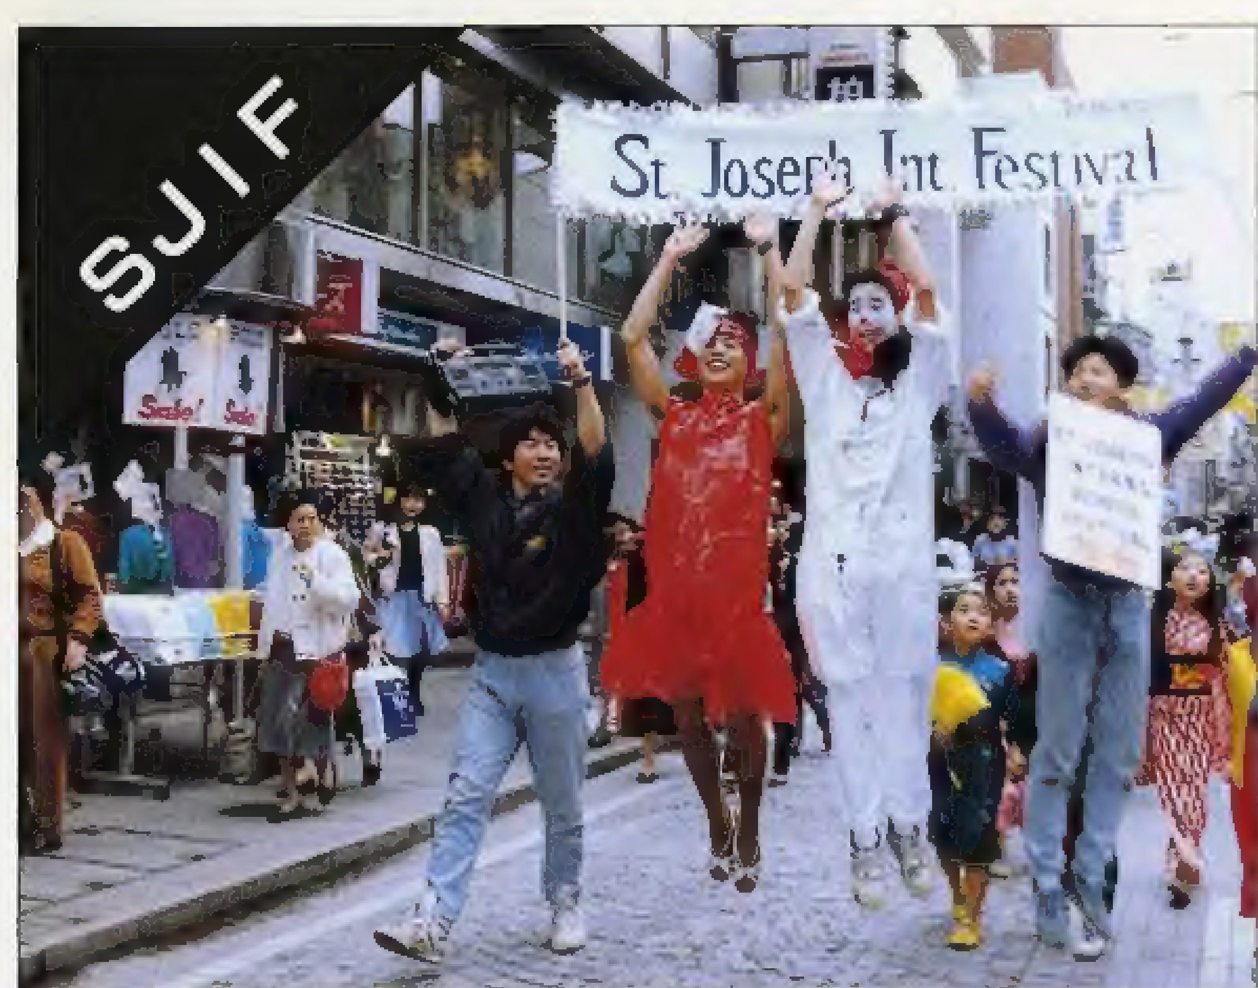

I wish you success as you go forward from St. Joseph International School, either to various parts of the world, or to various areas of Japan. As your contacts throughout the world increase, you will appreciate the network which you, as alumni of SJIS, have. Our network is vast, and we are proud to claim you as a part of it. Congratulations, and may God bless you always.

Sincerely yours,

James J Mueller

Guess who we are?

Student Body

The Student Body expanded in many different ways this year. The increase in the total student body led to a more international atmosphere. There was also an increase in the number of graduates attending four-year universities. Under the excellent leadership of Student Council President Yamagata Kenji, the students were more involved in the decision making concerning their school life. For example, the Uniform Committee, consisting of class representatives and faculty members, met regularly to discuss major issues. The Sports Committee and House Captains played an important part in the excellent organization of a very successful intramural program.

One of the most unique experiences for the students was the vicarious experience of a major war, owing to the sudden appearance of new friends from the Middle East. This experience brought the students to a closer understanding of the international situation and enabled them to create new bonds of friendship.

Athletics

This school year was a big one for sports at St. Joseph's. There were many accomplishments by the young athletes, both boys and girls, who went through many new phases to improve their skills. Almost everyone played his role in teams which enhanced his ability and cooperation.

The newly formed Yokohama Bluff League provided a very challenging year for the girls' and boys' basketball teams. Through the efforts of the players and the coach, the boys' basketball team came in first place.

The annual Kanto Plain Tournament saw a new participant, the first girls' volleyball team ever fielded by St. Joseph. The team managed to reach the semi-finals in the JV Tournament. The soccer team learned that playing well is more important than winning. The captain, Hidetoshi Nakagawa, felt that the players did their best throughout the season.

Both the field hockey and cross-country teams were also recognized for their continuing improvements. The athletes extend their appreciation and thanks to the coaches for their dedication and encouragement.

Go advances the ball to the foward line. His superb plays during the season earned him All-Star status.

The 1990/91 Varsity Soccer Team faced many changes. Many players were lost to graduation and a new coach was hired. All things considered, it was a good season

The team struggled at times. Three games saw the Saints well ahead at the half only to see the opponents successfully come back to tie. Throughout the season we sat on the verge of an excellent record. We played hard and each player made positive contributions to the team.

The JV Team struggled too. We experienced many injuries and it was difficult to field a team. However, they played hard and continued to improve throughout the season. They will be stronger players next year.

I congratulate both teams for playing to the best of their ability and wish them luck in their future endeavors.

Captain Ine expresses her joy after the team's first victory. Ine and her teammates worked hard throughout the season and deserved third place in the tournament.

This year, for the first time in St. Joseph's history the girls took part in the K.P.A.S.S.P. J.V. volleyball league. Ten teams took part including ourselves. We played every school twice so we played eighteen games. At the end of the season we had ten wins and eight losses which placed us halfway up the league table. Not bad for a first attempt.

A fantastic season! Congratulations to all team members for their dedication and hard work. A season packed with memories forever! Two moments that will remain with me are when we took a set from the league champion Seisen and when we reached the semi-finals in the K.P.A.S.S.P. J.V. volleyball tournament at ASIJ on November 3rd. Special thanks to the captain Ine Fleming and our number 1 spiker Yukari Kinoshita who will be sadly missed and was awarded MVP, most valuable player, this season.

This year SJIS basketball season was quite successful. It started with three close games, winning by four, one, and one points respectively. The Saints were psyched about being unbeaten but that feeling did not last long. An eight point loss to Yamate Chinese School put an end to their success however. A one point victory over St. Maur was followed by a two point loss to YIS. As the season progressed, a long-awaited show-down for number one position against YIS finally took place. Even though the Saints were down by 16 points in the first-half, they pulled off an incredible 57-55 come-from-behind triumph to lift them up to the top. A career high game by Kenji and clutch shooting by Jojo and Marc were largely responsible for this outcome. A win over St. Maur clinched the newly formed Bluff Basketball League for St. Joseph.

Toshi receives the Yokohama Bluff League All-Star for his defense.

Power foward Kenji grabs another rebound.

Captain Joji runs the warm-up drill.

After a challenging road to victory, the team throws Joji in the air to show their ineffable gratitude.

Top scorer Marc goes for another basket.

The Junior High girls are working hard to acquire and improve the skills necessary to play good volleyball. We have a record number of members, nineteen in all. If they work hard, maybe we could put a J.H team in the KPASSP league next year!

Activities

Once again St. Joseph's activities proved to be successful as well as educational for the participants. The brainbowl club produced a junior, Farrukh Sair, who received first place. The Student Council offered many experiences for the students. There were new activities such as the Junior Drama Club and Advanced Japanese Club. All other activities were continued with immense talent creating an amiable ambiance.

In all, SJIS had nineteen activities which were constructed to broaden the students' understanding in various fields. Each activity was an experience that allowed the students to reach their goals toward higher education.

Working with this year's student council has been both pleasant and rewarding. The leadership of Kenji has been positive and responsible, setting the tone for the entire council. Meetings are dynamic and the student council activities have been quite successful with most committee chairs doing their share of the work. Student government needs time to be at its best. SJIS students are involved in many activities in addition to a full schedule of classes. I would like to see a leadership class developed where students could get credit toward the diploma. My best wishes to all our future leaders.

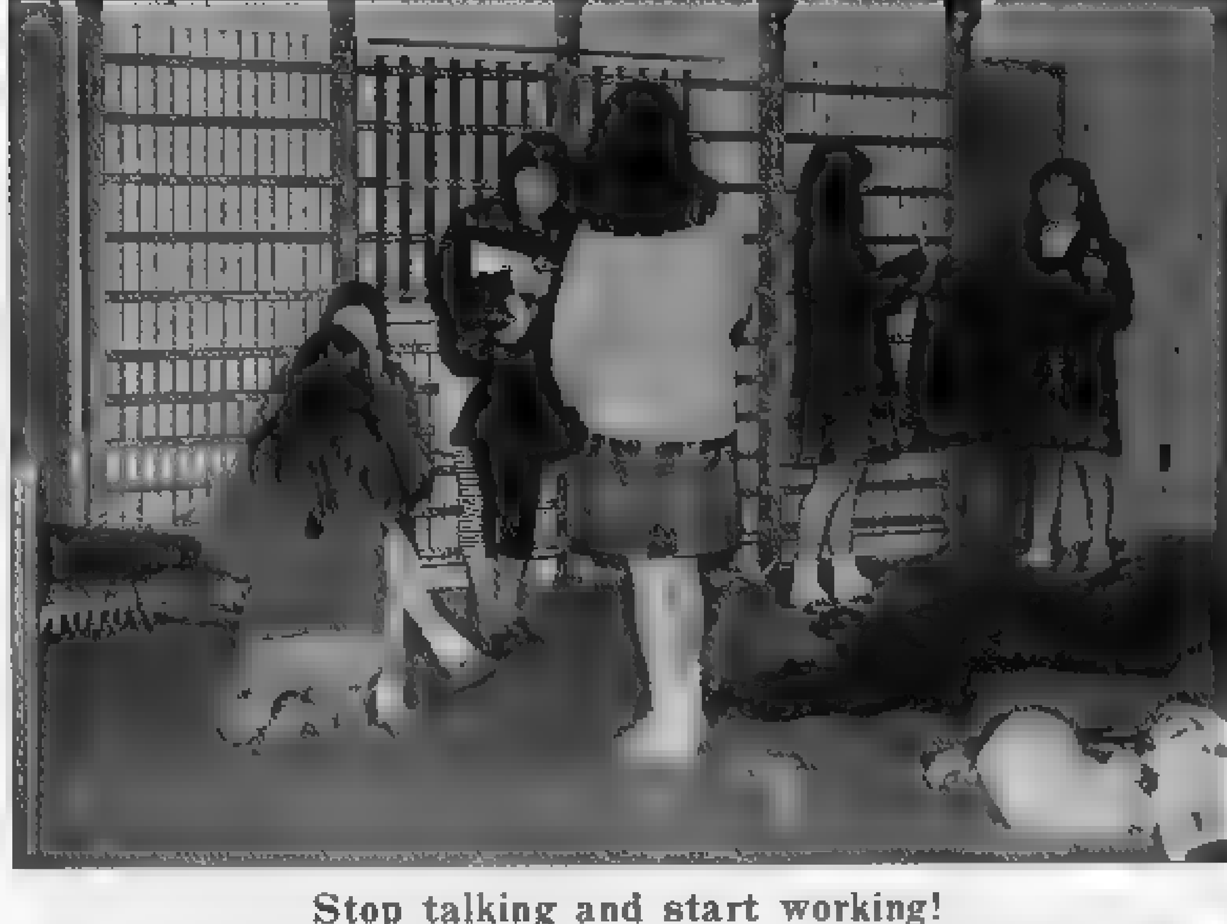

Best couple...

Faculty

The faculty and school staff dedicated themselves not only in the classroom, but outside as well, with extracurricular activities. Our college counselor helped open the doors to universities for the seniors' futures. If the faculty had not dedicated its precious time after school hours, half of the achievements would not have been possible. Each and every teacher unselfishly offered his knowledge to bring up and sharpen the student's understanding in his respective field. The office staff had kindly organized and cared for the personal needs of the students. The maintenance staff kept the facilities in proper order so that the students could study and play in the best environment. The generous work of the mothers' club enabled a successful Bingo Food Festival. Without the endearment of the adults, the school year would not have been the same.
